Vela Adventurous Fund
Monthly Factsheet

VELA FUNDS

As of 31/12/2024

Investment Strategy

The Fund aims to provide a combination of capital growth and income over rolling five-year periods, with a target volatility between 12% and 15%.

The Fund will typically invest through other regulated collective investment schemes, in a range of asset classes, including fixed income (including bonds issued by governments and companies), company shares, commodities and hedge fund strategies, deposits, cash and near cash.
AMC: 0.40%

Underlying Funds OCF: 0.42%

Fund Managers

Sentinel Portfolio Management was launched in 2020, with the aim of taking investment management back to basics, challenging the current investment management marketplace on both thinking and cost. With a team that can trace its roots back to the 1990s, our philosophy has been shaped by our experience, believing that it is risk that drives returns, rather than relying on traditional Asset Allocation methodology. Our Asset Allocation is therefore best described as 'fluid', preferring to manage our portfolios by volatility, generating low-cost goal-based outcomes.
